

## *Your Ideal Life*

In order to set your goals, you need to clarify what you want out of life. Use this page to write own what would make your life great, including things like work, home, relationships (family/friends/romantic), spirituality, etc. Don't worry about anything except getting your ideas down on paper.

## Categories

Group your ideas so that they form categories. You should have at least 3, but don't go higher than 5. List your categories here, and include notes about what ideas go with each category. Possible categories include:

- Home
- Personal
- Work/school
- Finances
- Spirituality
- Friendships
- Family
